

Introducing ReadyFit Windshield Film Kits

The Best Windshield Protection Film Just Got Easier to Install!

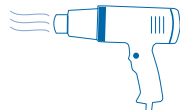

ClearPlex ReadyFit pre-shrunk and pre-cut windshield film kits by Madico make installation of windshield protection more efficient so you can do more installs in a shorter amount of time without mistakes. Madico offers more than 40 popular vehicle models including Porsche, Tesla, Audi, BMW, Chevrolet, Ford, and Acura.

Madico cuts and forms ClearPlex to custom fit popular vehicles. Using an actual OEM windshield, the film is heat shrunk and pre-cut to the shape and fit of that specific make and model, eliminating these time-consuming steps for film installers.

ClearPlex is the clear choice for windshield protection—staying optically clear while protecting glass from road debris that can damage expensive windshields, especially those with ADAS technology. Cracks and chips in windshields can be hazardous and costly to repair for vehicle owners

Reduces installation time by more than 50% while maintaining the same margin as a bulk roll installation*

Eliminates risk of overheating or burning the film, molding or paint

No cutting or heat shrinking needed for most vehicles and no scratched glass*

ClearPlex Invisible Windshield Protection Films:

- Protects glass from road debris
- Proprietary, scratch-resistant coating
- Warranted not to peel, bubble, crack, or yellow
- Maintains structural integrity of OEM windshields
- Optically clear, invisible windshield protection
- Faster runoff of rain and snow
- Protects interiors from fading
- Helps maintain vehicle value
- Ideal for maintaining fleet vehicles
- Essential for vehicles with ADAS technology

Anyone can install ClearPlex using ReadyFit kits. No installation training is required. If you haven't tried ClearPlex yet, our new preshrunk kits will make it easier than ever to add windshield film to your line of window film offerings! It's perfect for high-end vehicles as well as fleet vehicles such as rental cars, taxis, and buses.

Contact us to order ClearPlex ReadyFit Kits Today! 888-887-2022

*ReadyFit kits are made on uninstalled glass. If a certain vehicle has side gaskets or molding that are not removable, there may be minimal trimming required. Average installation time is 30 - 40 minutes.
